SUBJECT: Class H, MIL-PRF-38534 Certification, Hybrid Microcircuits, FSC 5962

Rhonda Santiago  
Manager Quality Engineering  
Teledyne Electronics Technologies  
12964 Panama Street  
Los Angeles, CA 90066-6599

Dear Ms. Santiago:

Your hybrid facility at 12964 Panama Street, Los Angeles, California, was sample audited the week of July 21, 2003 for compliance with MIL-PRF-38534 Class H.

An acceptable level of confidence has been established that the compliance exists. Therefore, Teledyne Electronics Technologies' Class H certification (certificate enclosed) is continued effective March 1, 2004.

This certification is for the following:

- a. Quality Management Plan: Quality Assurance Program Plan 7700530 rev. T
- b. Conversion of Customer Requirements: Quality Planning 2.1 rev. W
- c. Controlled documentation baseline for processing MIL-PRF-38534 devices: EG1106 655

This certification is valid until terminated by written notification from the qualifying activity. The normal period of certification is two years from the date of the audit and, if warranted, may be withdrawn by DSCC at any time. Your facility may be re-audited on a drop-in basis at any time.

All qualification, conformance, and periodic inspection must be performed at a facility that has a DSCC-VQ letter of Laboratory Suitability for the applicable test method and condition.

If you have any questions, please contact Raymond Crothers at (614) 692-0583.

Sincerely,

ROBERT P. EVANS  
Chief  
Sourcing and Qualifications Unit

NOV 29 2004

SUBJECT: Review of Retention Report October 1, 2003 through September 30, 2004 MIL-PRF-38534, FSC 5962

Mr. Evon Bennett  
Quality Assurance Manager  
Teledyne Microelectronic Technologies  
12964 Panama Street  
Los Angeles, CA 90066-6534

Dear Mr. Bennett:

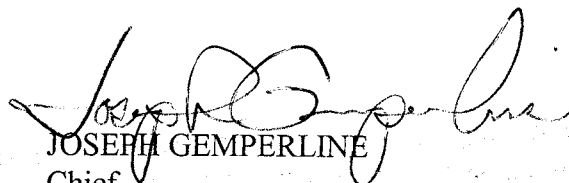

We have reviewed your Retention of Qualification Annual Report for the period October 1, 2003 through September 30, 2004. The report indicates your continued ability to produce products in compliance with MIL-PRF-38534 and your QML listing. Therefore, your listing will remain on QML-38534.

QML manufacturers shall notify the qualifying activity immediately after learning of a potential issuance of a GIDEP alert, problem advisory or major quality/reliability problem affecting QML products. This includes failure to perform screening or sample testing (including inspection) in accordance with MIL-PRF-38534. Failure to provide notification may be grounds for removal from QML 38534.

Your next Retention of Qualification Report is to be submitted by October 31, 2005. If we do not receive the report by this date, your company may be removed from the QML-38534.

If you have any questions, please contact Ms. Tonnu at (614) 692-0586.

Sincerely,

  
JOSEPH GEMPERLINE  
Chief  
Hybrid Devices Team
